Sweating Bullets in December

We ordered special weather for the December shoot and it came. A fine day to shoot, maybe a little warm. Some folks showed up that have been gone for a while, doing other things. Good to see Minnie Pearl Handles. Winchester has a talented group he brings with him. We shot at a "snake " at the cabin and there were not a lot of hits on the "snake " at the end of the match. Watch that front sight, it was fun to have to aim at it though.

Leatherneck returned from Las Vegas and so did a picture on him in his night shirt. I think it is still posted on the bank wall for all to see.

We suffered a little damage from the cold weather on the ladies toilet. Seems some water froze and broke a pipe. Somebody will have to get that fixed.

In January, if it is not too cold, we will have our annual club meeting. This is the time for anyone who desires to be an officer in the club to step forward. All positions are subject to change and nominations will be taken from the floor. If you are interested, let me know between now and then and I will put you on the agenda. If you wish to wait until the meeting to announce for an office, that will be OK too. Dues will be due at the January meeting also. Twenty five dollars a year is a bargain for the fun you get to enjoy and we could use the money to continue to improve on the BAB.

We are scheduled to have our annual match in April of 07. It will be a combination of regular shooters and the black powder championship like last year. The range is starting to show a little ware and needs to be spruced up, so we will have a few work days between now and then. April is only four months away and that leaves

only three work days if we still use the fourth weekend. It also requires some participation from a lot of people to put the match on. Be prepared to do some participating. Have a safe and Merry Christmas and A Happy New Year. See you in 2007.
