Oct. 2009 Match
October Shoot and Other Things.

We had 44 shooters in October, a good number. It was a little cool, but the strong at heart managed just fine. A good time was had by all. Everybody knows that Woodie wrote another too. Free State and Short Stuff brought their favorite toys for the Hash House Stage. I like the chicken best.

Some of us have been on the road for the past month. Free State and Short Stuff have been so many places, I can't remember them all. Slick McClade's first annual match was fun as well as the Cypress Creek Cowboys match which is always a great match. I forget who did what, but our shooters did well, me not so much.

Harpe had to miss the last match due to sick grandchildren (3). I understand that. Work on the walls will have to wait until January or so due to hunting season and the use of Southern Outlaw's equipment and just the busy time of the year.

I got news today that Parson's mother passed away on October 22. Keep him in your prayers.

Diamond Lilly was on a talk show about guns and the Peacemakers the other day. She did well. Way to go.

We have applied for the Mississippi State Shoot in 2010, but have not heard back from SASS, I do not expect a problem, so get ready to make the range look good next year.

Good shooting and stay well.

Squinter

Could you please forward this to the cowboy family.

My heart aches at the moment from the pain of losing my Mother today. I want to thank all of my cowboy family for their prayers and support over the past few months. Please continue to pray for my Dad and my family during this time.

Parson

At this time, I am still planning on running the fifth Saturday shoot.

Harpo's comments

To add to Squinter's comments, a large group of MS. Peacemakers went to both Slicks' place at Quitman LA and to Cypress Creek (Matt & Nora's place in Downsville LA just west of West Monroe). Both places put on a good shoot.

All of Slick's family got into the work and fun. They did a good job. His niece sang the opening ceremony and his preacher gave the prayer.

Can't get into who works harder, Nora and Matt work hard and are a pleasure to be around. Their shoot was good.

We shot on a posse with one of John Wayne's stunt men and fill in at Cypress Creek. His name is Texas Jack Morales. He is 6' 4 1/4" tall...exact height as the Duke. He said they had to pad him up; he wasn't as heavy as the Duke. He told me about being tricked into jumping a horse off a cliff. Texas Jack said he is afraid of heights too. Buy me dinner sometime and I'll tell you more details. Texas Jack was a nice guy, his wife was nicer. Her name is Leggs. No one asked how she got her name; it is evident when you see her. You can pick him out in the snapshots our photographer (Fleetwood) took and posted on the web site. My good friend Galvez was the winner at the shoot, Texas Jack was 3rd. They must have recapitulated on the scores. Texas Jack moved to 1st and Galvez moved to 3rd, Squinter 4th. George Wallace used that word when he came from behind in a Presidential primary; I always wanted to use it. Galvez refused to get his picture taken standing between me and Texas Jack, he insisted on moving to one side. Ain't people funny?

I was at the October shoot early. I set my stage up; I took it from Winter Range. My oldest son and Ms. Harpe needed to attend a function. My daughter in law was taking care of 3 sick 14 month old children and my mind would not let me shoot cowboy. Nurse Harpo headed to their house. I got on 49 highway kinda fast at Mendenhall...it's downhill you know. At the bottom of the hill was MHP. 79 in a 65 is a bad thing to do.

Whitey hurt my feelings at Monroe. He said you used to be a lot faster with your rifle...you kinda falling off. I shot with a fast young team of people at the Monroe team shoot. I was to shoot the shotgun. Slick asked Galvez if I could handle my end of it with the shotgun? Galvez told him he thought I could. On the ride home Squinter and I both made the excuse, you bound to fall behind shooting once a month with people who shoot almost every week. It's more pleasing to think of it as race horses get heavy and slow staying in the barn. My new training program is every time I have something to eat; I repeat 10 times...I AM A WINNER! I'll let you know how my new training program works next month. Harpo
